

Vital Facilities Performance. Custom Fabrication Solutions.

For over 90 years, IKM Building Solutions, Inc. (IKM) has provided customers a full range of customized HVAC, plumbing, industrial piping, and air duct systems solutions. Through innovative design, quality execution, and a deep knowledge of the products we offer, IKM Building Solutions, Inc. has successfully completed 6,000+ projects for 800+ customers in the past year.

IKM offers a complete line of custom electrical enclosures and pull boxes. Our staff of full-time craftsmen have the experience, expertise, and skills required to provide high-quality galvanized steel, stainless steel, black iron, and aluminum products. Each of these products are manufactured in our leading-edge metal fabrication facility and fabricated to current electrical code requirements, but they do not carry a UL listing.

The result is custom metalworking services and solutions that meet clients' most demanding quality and scheduling requirements, with a typical lead time of two to three days.
